ITB

BPUDL*

NOTE :

BPUDL is Agency for ITB Corporations and Endowment Fund Management

Vision

“A trusted solution provider integrating Science, Technology, Engineering, Arts, and Business Management (STEAM) to deliver innovative and sustainable impact”.

Mission

1. Providing the best services, solutions and innovation, by synergizing the potential and abilities of the ITB Academic Community through the application of science, appropriate technology, art and business management;
2. Actively participate in developing an ethical, professional and modern business community in Indonesia;
3. Building leadership in the consulting services sector, implementing solutions wisely by incorporating local wisdom;
4. Implementing a culture of learning and innovation to meet global competencies and demands.

Value

"Maintaining customer satisfaction, maintaining integrity, working as a team, being better than competitors, providing appropriate solutions, while keeping the work environment comfortable and safe."

OUR SERVICES

Consulting

Offers strategic expertise to boost business performance and growth.

Human Capital Development

Enhances workforce skills through training and professional growth.

Practical Technology

Delivers applied tech solutions to solve real-world business challenges.

Logistic & Transportation

Manages the efficient movement of goods and people across regions.

Energy

Focuses on the production, distribution, and innovation in power and fuel.

Mining

Engages in the extraction and processing of natural resources.

Maritime, Fisheries, and Agriculture

Supports ocean-based industries, fishery management, and sustainable farming.

Information and Telecommunications

Covers digital infrastructure, communication networks, and IT services.

Health and Pharmaceutical

Provides medical services, develops pharmaceuticals, and promotes health and wellness.

Education

Develops knowledge, skills, and innovation through learning institutions.

Financial Services and Insurance

Provides banking, investment, and risk management solutions.

Manufacturing Industry

Produces goods through mechanical, physical, or chemical processes in factories and industrial plants.

International Cooperation

Promotes cross-border partnerships and global development initiatives.

Government

Implements public policies and delivers essential public services.

Collaboration with Other Institutions

Encourages joint efforts to achieve shared goals across sectors.

STEAM BASED INNOVATION AND SOLUTIONS

Our highly commitment to excellence drives us to consistently deliver impactful results that keep businesses ahead in a rapidly evolving world. By integrating the principles of Science, Technology, Engineering, Arts, and Business Management (STEAM), we provide solutions that are both innovative and sustainable.

ITB Talents

Powered by exceptional lecturers, researchers, and young innovators from ITB, we harness world-class expertise actively engaged in international collaborations, research, and technological advancement.

ITB Facilities / Tools

Access to laboratories, research facilities, and advanced technological equipment within ITB, ready to support consultancy services, applied research, and human capital development.

ITB Networks

Through an extensive network connecting academia, industry, government, and communities—both nationally and globally—ITB fosters collaboration that drives effective and sustainable solution implementation.

ITB Knowledges

Utilizing ITB's intellectual resources, including research outcomes, scientific studies, and multidisciplinary expertise rooted in STEAM. This knowledge forms the foundation of precise, data-driven, and innovative solutions.
